## IOL Chemicals and Pharma. Reports Q1 FY23 Results

Mumbai: IOL Chemicals and Pharmaceuticals Limited, a leading manufacturer of pharmaceutical (APIs) and specialty chemicals reported results for the first quarter ended June 30, 2022.

Commenting on the performance of the Company during the quarter, Dr Sanjay Chaturvedi, Executive Director & CEO said, "Over the next few years, our focus will be on diversifying into other specialty chemical products and increase the share of non-lbuprufen business. The investment planned in setting up a new plant will aid the Company in strengthening its position in both, Domestic and Export markets, thereby helping in improving our market share. Over the course of next few quarters, the Company's plan to explore

new geographies and de-risk the business with continuous backward integration model will play out leading to improvement in revenue as well as profitability." "Various business challenges of softening demand, rising inputs costs and volatility in chemical prices are slowly getting normalised as can be seen from recovery in EBITDA margins. However, we believe that the challenges are a temporary phenomenon. The robust global demand on specialty chemicals fronts owing to shift in market share from China would benefit the sector over next few years", Dr Chaturvedi said. As one of largest manufacturers of Ethyl Acetate, the Company will strengthen its position in the 'green solvent' market by increasing its capacity by

20% to 120,000 MTPA from 100,000 MTPA before the end of current fiscal. The investment of Rs 15 Crore for this capex is being funded through internal accruals only. Ethyl Acetate is widely used in Printing & Packing Industry, Adhesives, Agro-chemicals & Pesticides industry, pharmaceuticals industry and cosmetics industry. The Company will also be making further in-roads into western markets of India through a new plant for specialty chemicals and pharmaceuticals intermediates. This project, which is expected to be completed in 18 months, will require investment of Rs 300 crore. Through this plant, the Company's objective is to increase its market share in the domestic market as well as cater to international customers.

San Francisco, Aug 16 (IANS) As Big Tech companies begin to lay off employees in the global economic downturn, Google executives have reportedly warned workers to either boost performance or prepare to leave as "there will be blood on the streets" if the next quarterly earnings are not good.

In a company message viewed by Insider, Google Cloud sales leadership has threatened employees with an "overall examination of sales productivity and productivity in general" and that if next quarter results "don't look up, there will be blood on the streets."

If third quarter results "don't look up, [then] there will be blood on the streets," according to a message conveyed to the sales team. The warning was first reported by Insider.

## 'There will be blood on streets,' Google execs warn employees about layoffs

Google employees are "fearful of layoffs" after the company quietly extended its hiring freeze this month without making an announcement, reports The New York Post.

The company has now reportedly warned employees with layoffs if they don't produce results.

Alphabet and Google CEO Sundar Pichai told employees late last month that they must improve productivity due to fierce economic headwinds.

Pichai said that he wanted to solicit ideas from his employees on how to get "better results faster." "There are real concerns that our productivity as a whole is not where it needs to be for the head count we have," he was quoted as saying. Google in July put a freeze on hiring for two weeks to review its headcount needs

## Business Brief

### 70 employees of HBO Max streaming service lose jobs

San Francisco, Aug 16 (IANS) Warner Bros Discovery (WBD) has laid off nearly 70 workers, or 14 per cent of its workforce, at HBO and HBO Max streaming service. The staff is being fired under HBO and HBO Max chief content officer Casey Bloys, impacting 70 employees, reports The New York Times. "Unscripted and live-action family programming for HBO Max, the streaming service, were most affected," the report said late on Monday. Other cuts impacted HBO Max's casting, acquisitions and international departments. The latest round of layoffs come after AT&T's WarnerMedia officially merged with Discovery, Inc. in April. The deal saw AT&T receive \$43 billion in a combination of cash debt securities and debt retention.
